**GOOGLE CHROME HAS
137,345 EXTENSIONS
THESE 6 WILL SAVE
YOU 100S OF HOURS**

1. Dark Reader

By: codehub.py

It changes all **websites** to have a **dark color palette**.

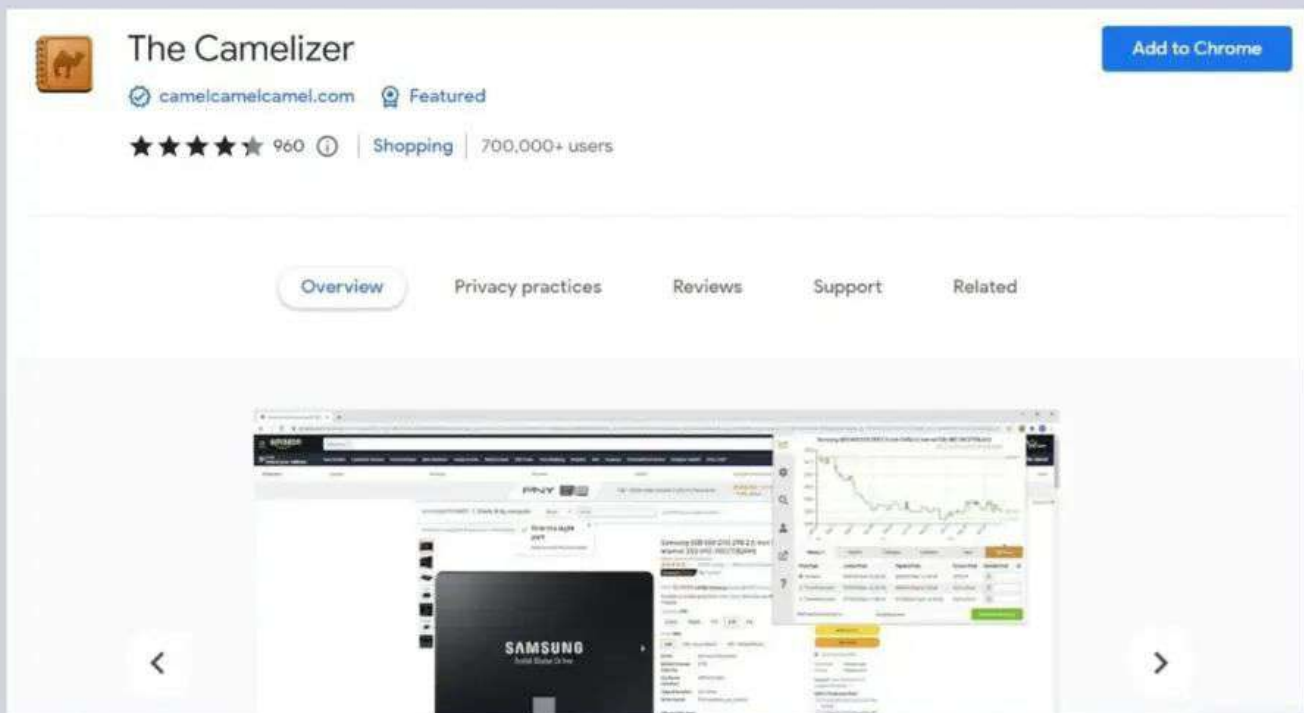

It is amazingly **useful** for browsing websites that don't have a **dark theme**.

2.The Camelizer

By: codehub.py

Many times **Amazon "discounted"** prices are **higher than regular** prices.

The extensions gives you a **price history** of the product with the ability to send you a notification when it reaches a **desirable** price.

By: codehub.py

3. Privacy Badger

It **blocks trackers** so that companies can't get your web **browsing history** and build a profile on you.

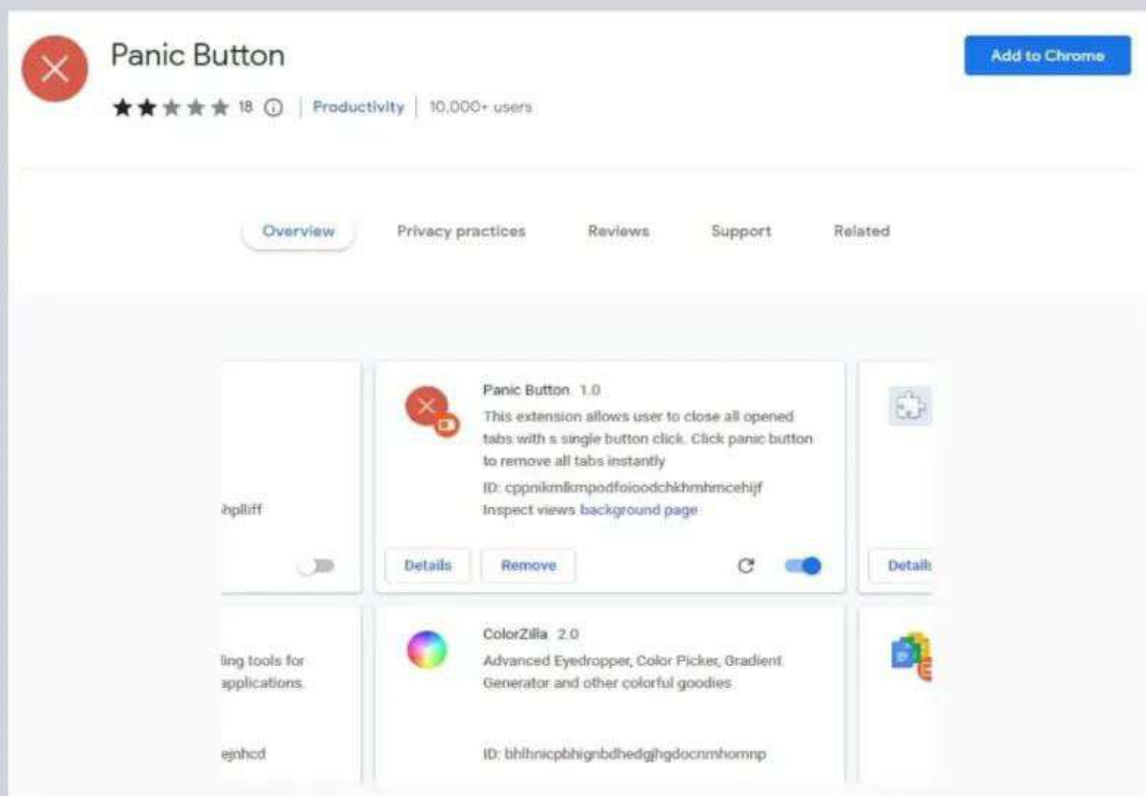

And it's a solid **privacy extension**.

4. Panic Button

By: codehub.py

Makes it easier for you to **hide all of your tabs** at once just by clicking on a button.

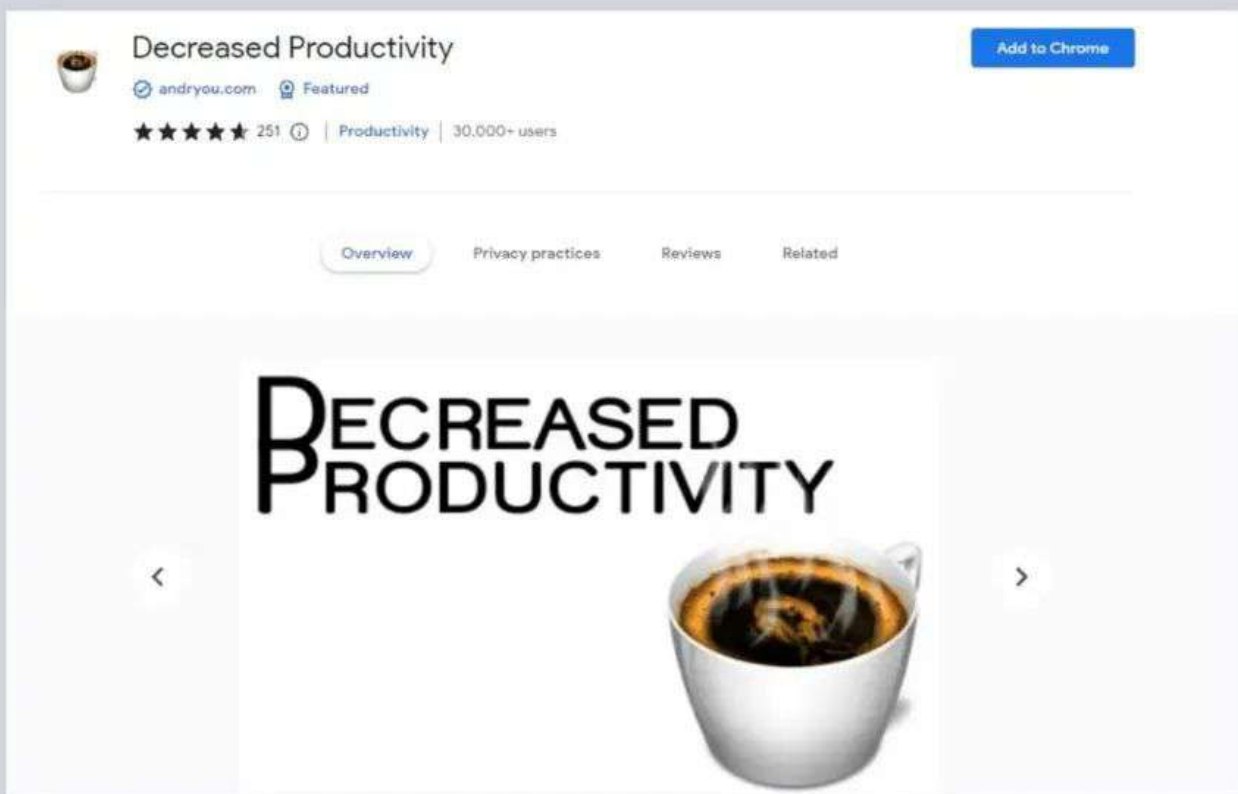

The **hidden tabs** are also saved as **bookmarks** in a separate folder so you don't lose them...

5. Decreased Productivity

Removes formatting on websites to make them look like **plain text**.

So you can browse at work without **attracting attention**.
